**Our Amazing District 8!**

Thank you all for attending the D 8 meeting in Las Vegas. Our member, Frank Fitzgerald PRP-R, was unable to travel to the meeting but joined us on the phone. Frank has not missed a District 8 meeting in 25 years. Our friend, Bob Williams, the official NAP photographer, photo-shopped the two-time past District 8 Director into the photo.

This issue of the Elite Eight Newsletter is one you will want to keep.

Dave Mezzera offers you a new challenge in his article “Today’s Challenge”. Thank you, Dave for all of your great articles. We have learned from your contributions and look forward to more in the future.

A copy of the revised District 8 Standing Rules adopted at the biennial meeting is in this newsletter. Thank you to Dave Mezzera PRP, Kathy Boyer PRP, and Craig Mitchie who served on the D8 Rules Special Committee.

You won’t find a report of the district meeting in this issue, it is all in the minutes for you to read. It was a fantastic meeting and for the first time that I can remember, motions were passed for District 8 to support and oppose bylaw amendments.

It was an honor and privilege to get to know so many amazing, talented, creative, awe-inspiring, … caring and kind members during my term. Thank you for the opportunity. I will be forever grateful.

**Introducing** your new District 8 Director, Mike Peck PRP. Yes, he will continue to serve as a district director since the liaison bylaw amendment did not pass!

**District Director’s Message**

Where do I start? Thank all of you who were at the District 8 meeting in Las Vegas and voted for me! Thank all of you back home who supported me. Especially, all the Arizona members. And if you don’t know much about me, I have a lot of history for you to look at.

First, I have big shoes to fill. We have had a lot of District 8 Directors from Arizona. Thank you for all your support and guidance in helping me lay the future for my Directorship. And it remains a Director position as the delegates did not see the benefit of changing to a Liaison position.

I hope to visit every association in the district at least once in the next biennium. I am a teaching parliamentarian and I hope I can have the opportunity to share some of my knowledge with each association.

I would hope that all the state presidents would share their goals with me for their association for the next biennium. I would like to ask each association to consider a scholarship or a subsidy for the next biennium for the foreign members.

Best Wishes, **Vivian Vincent PRP**
2017-2019 District 8 Director
We were not successful in getting a dues reduction for the foreign members who are from district 8 and are interested in membership in the NAP. Think if you would be a member if the NAP dues were a full month’s wage. Like in the Philippines. We have several potential members that are interested but until they see the value proposition, they are hesitant to join. When the materials from NAP cost more to ship than the materials cost; it is a real challenge to show new members the value of NAP and meeting management.

I am asking each state to consider a subsidy to pay for half of two new foreign members to entice them to join. As they are enticed to join others will follow. Any local unit who would like to take up the challenge is also welcomed to contribute. Please let me know if you state will approve such a subsidy so we can offer the program to new members from foreign countries so in two years we can show NAP why it is necessary to reduce the dues to foreign nationals to be part of democracy. In some countries it is a political issue. Our Chinese member was planning to come to the NAP Convention in Las Vegas at his own expense when the Chinese Government cancelled his visa. The vote may have been different had he been allowed to address the delegates. This is a lot to ask of our members, but it is important to the international growth of NAP.

I will have an opportunity in the future to tell you a little bit about me. However, I think I should at least establish a base for your information and for your support. I in fact joined AIP in 1975 before I knew of NAP. I have been a continuous check book member since 1975. I joined NAP in 1978. I joined NAP from Michigan where I was the first and only male member for many years. I have been an officer in three states. Including president of ASAP in 1991. I have been a frequent contributor to the NAP and have taught parliamentary programs in several states. Including many presentations at District 8 meetings as well as many state and National Meetings.

I will fill in more of my experiences in future publications. I am looking forward to working with all of you in the next two years. My favorite groups to engage me as a Parliamentary consultant are HOA’s and Churches. However, I have worked for groups as large as the National Association of REALTORS and as small as a HOA Board of Director’s or a membership meeting.

My contact information is as follows:

Michael Peck, PRP
Mail to Consulting@MikePeckAZRE.com my Parliamentary email
Mail to Mike@MikePeckAZRE.com my personal email.
Cell phone 602-359-8326. This is both my personal and my home phone number.

I am in Arizona which is on Mountain Standard time and we never change to Day Light Savings time. Please feel free to call me with your goals or ideas for NAP. I have always been outspoken so often I am not politically correct.

Thank you and I hope if I am in your state you will introduce yourself and share where you interest in NAP lies. NAP is a member-based system in does not work if members are not willing to step forward and contribute.

TODAY’S CHALLENGE

- - From David Mezzera, PRP

Discussions occasionally take place about the possibility or necessity of combining, merging, consolidating or dissolving NAP study units as they face dwindling membership. Here now is your challenge: What is the distinction between a "merger" and a "consolidation" in parliamentary terms? How can you remember the difference between the two? Try to answer this yourself before going any further!
CHALLENGE CONTINUED

Here’s what RONR 11th edition says, which will be followed by an example of each and a remembrance device

[p. 561, ll. 27-35] • In the case of a merger, one of the two organizations continue, while the other loses its independent identity and ceases to exist, since it is merged –that is, absorbed – into the former. • In the case of a consolidation, two or more organizations each discontinue their independent existence, and a new entity is formed that includes the memberships of the consolidating organizations, continues their work, and assumes their assets and liabilities.

• Example of a merger: Quite a few years ago, CA-Psi Unit and CA-Sigma Phi Unit (which both met on different evenings in San Francisco) each experienced declining membership. CA-Sigma Phi Unit has continued to this day, with Psi stopping entirely and allowing its members to "merge" or be absorbed into the membership of its sister unit. This unit continues to be called Sigma Phi and continues to meet (with a solid membership) on its original night, under the Sigma Phi bylaws, with members from the Psi Unit allowed to transfer their membership at the time of the merger, and with the latter’s treasury folded into the continuing unit.

• Example of a consolidation: Also a few years ago, two study units in San Diego County (CA-Beta Unit and CA-Mu Unit) felt that they could be a stronger single unit if they "consolidated." Thus, both went out of existence and a totally new study unit was formed from members of the two. They could have chosen any new name for the new unit (but not Beta nor Mu, since that would have indicated a merger); they chose a combination name from the two: CA-Beta Mu Unit, which needed to adopt a new set of bylaws, needed to elect officers from the consolidated membership and needed to set up a new treasury composed of funds from both prior units.

How to remember which is which? Think of freeway lanes when four lanes "merge" into three. The far-right lane (lane number four) ceases to exist as it becomes a part of the number three lane. The number three lane remains constant, never losing its identity, but it must accept cars that used to be in the number four lane, which has now gone out of existence and has been absorbed into the number three lane.

Or think of two independent freeways (say I-210 and I-310) that come together and create a totally new freeway at an intersection (creating say I-10). This would be a "consolidation" where all of the cars from both feeder highways start traveling on a brand new, totally different freeway, with the two prior freeways losing their individual numbers and identities; and now everyone is traveling on a new, different numbered freeway.

Got it? I hope this helps if you are part of a discussion about an organization or group considering the possibility of merging or consolidating - whether a parliamentary unit or any other organization you belong to or consult for.

He prepared a statement for the Director to read at the meeting and convention.
