APPENDIX D: CONFLICT OF INTEREST POLICY

1. Purpose

The purpose of the Conflict of Interest policy is to protect the National Association of Parliamentarians ("Association") interest when it is contemplating entering into a transaction or arrangement that might benefit the private interest of an officer or director of the Association or might result in a possible excess benefit transaction. This policy is intended to supplement but not replace any applicable state and federal laws governing conflict of interest applicable to nonprofit and charitable organizations.

2. Definitions

a. Interested Person. Any director, principal officer, or member of a committee with governing board delegated powers who has a direct or indirect financial interest, as defined below, is an interested person.

b. Financial Interest. A person has a financial interest if the person has, directly or indirectly, through business, investment, or family:

- An ownership or investment interest in any entity with which the Association has a transaction or arrangement.
- A compensation arrangement with the Association or with any entity or individual with which the Association has a transaction or arrangement, or
- A potential ownership or investment interest in, or compensation arrangement with any entity or individual with which the Association is negotiating a transaction or arrangement.
- Compensation includes direct and indirect remuneration as well as gifts or favors that are not insubstantial.

A financial interest is not necessarily a conflict of interest. Under Article III, Section 2, a person who has a financial interest may have a conflict of interest only if the appropriate governing board or committee decides that a conflict of interest exists.

3. Procedures

a. Duty to Disclose. In connection with any actual or possible conflict of interest, an interested person must disclose the existence of the financial interest and be given the opportunity to disclose all material facts to the directors and members of committees with governing board delegated powers considering the proposed transaction or arrangement.

b. Determining Whether a Conflict of Interest Exists. After disclosure of the financial interest and all material facts, and after any discussion with the interested person, he/she shall leave the governing board or committee meeting while the determination of a conflict of interest is discussed and voted upon. The remaining board or committee members shall decide if a conflict of interest exists.

c. Procedures for Addressing the Conflict of Interest. An interested person may make a presentation at the governing board or committee meeting, but after the presentation, he/she shall leave the meeting during the discussion of, and the vote on, the transaction or arrangement involving the possible conflict of interest.

The chairperson of the governing board or committee shall, if appropriate, appoint a

disinterested person or committee to investigate alternatives to the proposed transaction or arrangement.

After exercising due diligence, the governing board or committee shall determine whether the Association can obtain with reasonable efforts a more advantageous transaction or arrangement from a person or entity that would not give rise to a conflict of interest.

If a more advantageous transaction or arrangement is not reasonably possible under circumstances not producing a conflict of interest, the governing board or committee shall determine by a majority vote of the disinterested directors whether the transaction or arrangement is in the Association's best interest, for its own benefit, and whether it is fair and reasonable. In conformity with the above determination, it shall make its decision as to whether to enter into the transaction or arrangement.

d. Violations of the Conflicts of Interest Policy. If the governing board or committee has reasonable cause to believe a member has failed to disclose actual or possible conflicts of interest, it shall inform the member of the basis for such belief and afford the member an opportunity to explain the alleged failure to disclose.

If after hearing the member's response and after making further investigation as warranted by the circumstances, the governing board or committee determines the member has failed to disclose an actual or possible conflict of interest, it shall take appropriate disciplinary and corrective action.

4. Records of Proceedings

The minutes of the governing board and all committees with board delegated powers shall contain:

- The names of the persons who disclosed or otherwise were found to have a financial interest in connection with an actual or possible conflict of interest, the nature of the financial interest, any action taken to determine whether a conflict of interest was present and the governing board's or committee's decision as to whether a conflict of interest in fact existed.
- The names of the persons who were present for discussions and votes relating to the transaction or arrangement, the content of the discussion, including any alternatives to the proposed transaction or arrangement, and a record of any votes taken in connection with the proceedings.

5. Compensation

A voting member of the governing board or any committee whose jurisdiction includes compensation matters and who receives compensation, directly or indirectly, from the Association for services is precluded from voting on matters pertaining to that member's compensation. This shall not prohibit that voting member from providing information to any committee regarding compensation if required.

6. Annual Statements

Each board member, executive director, and member of a committee with governing board-delegated powers shall annually sign a statement that affirms such person:

- Has received a copy of the conflicts of interest policy,

- Has read and understands the policy,
- Has agreed to comply with the policy, and
- Understands the Association is charitable and in order to maintain its federal tax exemption, it must engage primarily in activities that accomplish one or more of its tax-exempt purposes.

7. Periodic Reviews

To ensure the Association operates in a manner consistent with charitable purposes and does not engage in activities that could jeopardize its tax-exempt status, periodic reviews shall be conducted. The periodic reviews, shall, at a minimum, include the following subjects:

- Whether compensation arrangements and benefits are reasonable, based on competent survey information and the result of arm's length bargaining.
- Whether partnerships, joint ventures, and arrangements with management organizations conform to the Association's written policies, are properly recorded, reflect reasonable investment or payments for goods and services, further charitable purposes and do not result in inurement, impermissible private benefit, or in an excess benefit transaction.

8. Use of Outside Experts

When conducting the periodic reviews as provided for in Article VII, the Association may, but need not, use outside advisors. If outside experts are used, their use shall not relieve the governing board of its responsibility for ensuring periodic reviews are conducted.

APPENDIX F: NAP INVESTMENT POLICY STATEMENT
(adopted June 9, 2015)

Statement of Purpose

The purpose of this Investment Policy Statement (together with its Attachment, the “Statement”) is to set forth the policies and procedures that shall guide the Board of Directors (the “Board”) of the National Association of Parliamentarians (the "NAP") in supervising and monitoring the management of NAP's investable assets (the "Fund").

General Principles

NAP shall diversify the investments of the Fund unless the Board, after appropriate deliberation, reasonably determine that because of special circumstances the purposes of the Fund are better served without diversification.

The Fund shall be managed in accordance with high standards of fiduciary duty and in compliance with applicable laws and regulations, including but not limited to the version of the Uniform Prudent Management of Institutional Funds Act enacted in the District of Columbia if applicable.

Standards for risk, return, asset allocation, diversification and liquidity shall be determined from a strategic perspective and measured over successive market cycles.

Roles and Responsibilities

The Board elects to oversee investment matters directly with assistance in fulfilling its roles and responsibilities charged to the Budget and Finance Committee (the “Committee”).

The Committee, acting pursuant to this Statement and to instructions from the Board, shall have direct responsibility for the oversight and management of the Fund and for the recommendation of investment policies and procedures.

The Committee shall, as more fully described herein, manage the Fund via a set of asset allocation targets and ranges for the portfolio. In fulfilling its responsibilities under this Statement, the Committee shall recommend to the Board the hiring and dismissal of investment managers, fiscal agents and other advisors, and the purchasing or sale of any assets in the Fund.

Reports of the Fund shall be provided quarterly to the Committee. The Executive Director together with the Treasurer shall be responsible to the Board for maintaining detailed records of all invested funds and for carrying out the investment policies and procedures established by the Board.

Policy Review

This Statement shall be reviewed at least annually by the Committee with recommendations for changes presented to the Board.

Goals and Objectives

Objectives of the Fund

The Fund has a long-term investment horizon (beyond 10 years). The primary investment objectives of the Fund are to:

- **Maintain the real purchasing power of the Fund after inflation, costs and spending (i.e., achieve “intergenerational equity”); and**
- **Provide a stable source of liquidity and financial support for the mission of NAP.**

Investment Philosophy

While acknowledging the importance of preserving capital, the Board also recognizes the necessity of accepting risk if the Fund is to be able to meet its long-term investment goals. It is the view of the Board that choices made with respect to asset allocation will be the major determinants of investment performance. The Board shall seek to ensure that the risks taken are appropriate and commensurate with the Fund’s goals.

Investment Policies and Procedures

Operating Guidelines

The Fund shall be managed in accordance with the Operating Guidelines for risk and liquidity described in this section, a template for which is set forth in Attachment A. Once the Operating Guidelines have been approved by the Board, the Committee shall review the Fund within the Operating Guidelines and make recommendations to the Board. The following policy descriptions refer to items in the corresponding sections in Attachment A.

Investment Policy

- ***Asset allocation.*** The Committee shall, consistent with the above sections, recommend to the Board investments of the Fund using an asset allocation that is designed to meet the Fund's long-term goals. The allocations will be based on the objectives of the Fund.
- ***Illiquid investments.*** Because of their long-term nature, investment in and commitments to illiquid investment strategies, including but not limited to private capital, private equity real estate, natural resources, distressed debt and other similar private investments, shall be analyzed and discussed by the Committee separately.
- ***Targets and ranges.*** The asset allocation shall be implemented using a policy portfolio as set forth in Attachment A, with target allocations and ranges for each investment strategy. Due to the need for diversification and the longer funding periods for certain investment strategies, the Committee recognizes that an extended period of time may be required to fully implement the asset allocation plan. It is expected that market value fluctuations will cause deviations from the target allocations to occur.
- ***Rebalancing.*** The purpose of rebalancing it to maintain the Fund's policy asset allocation within the targeted ranges, thereby ensuring that the Fund does not incur additional risks as a result of having deviated from the policy portfolio. Rebalancing will take place on a portfolio basis to

reduce expenses as far as practicable. More frequent tactical rebalancing of asset classes within their ranges will also be permitted in order to take advantage of shorter-term market conditions, as long as such changes or reallocations do not, in the opinion of the Board and Committee, cause undue risk or expense to the Fund.

- *Standards of conduct.* In managing and investing the Fund, the Board shall:
 - act in good faith and with the care an ordinarily prudent person in a like position would exercise under similar conditions;
 - incur only costs that are appropriate and reasonable in relation to the assets, the purposes of NAP and the skills available to NAP;
 - make a reasonable effort to verify facts relevant to the management and investment of the Fund;
 - consider the following factors, if relevant:
 1. general economic conditions;
 2. the possible effect of inflation or deflation;
 3. the expected tax consequences, if any, of investment decisions or strategies;
 4. the role that each investment or course of action plays within the overall investment portfolio of the Fund;
 5. the expected total return from income and the appreciation of investments;
 6. other resources of NAP;
 7. the needs of NAP and the Fund to make distributions to preserve capital; and
 8. an asset's special relation or special value, if any, to the charitable purposes of NAP.
 - make management and investment decisions about an individual asset not in isolation, but rather in the context of the Fund's portfolio of investments as a whole and as part of NAP's overall investment strategy, including the risk and return parameters set forth in this Statement.

- *Delegation.* Subject to any specific limitations set forth in a gift instrument, the Board may delegate to an external agent the management and investment of all or part of the Fund to the extent that NAP could prudently delegate under the circumstances. The Board shall act in good faith, with the care that an ordinarily prudent person in a like position would exercise under similar circumstances in: (1) selecting an agent; (2) establishing the scope and terms of delegation, consistent with the purposes of NAP and the Fund; and (3) periodically reviewing the agent's actions in order to monitor the agent's performance and compliance with the scope and terms of the delegation. The Board shall engage qualified external professional investment managers who have demonstrated competence in their respective investment strategies. These managers shall have full discretion and authority for determining investment strategy, security selection and timing of purchases and sales of assets subject to the guidelines specific to their allocation.

- *Investment manager reporting and evaluation.* The investment managers responsible for the investment of the Fund's assets shall report quarterly on their performance. Reports shall include, at a minimum, the following information:

- Comparative returns for the Fund assets under management against their respective benchmarks.
- A complete accounting of all transactions involving the Fund during the quarter.
- Each investment manager shall review the portfolio with the Committee at least annually; these review meetings may be supplemented by such other meetings as the Committee or Board may think necessary.
- The Committee shall monitor and compare the Fund's performance relative to:
 - Absolute return objectives for the Fund.
 - The respective benchmarks for each asset class or strategy in which the Fund is invested, as set forth in the asset allocation table in Attachment A.

Asset Allocation, Investment Strategies, Guidelines and Restrictions

The Fund shall be diversified both by asset class and within asset classes. Within each asset class, investments shall be diversified further among economic sector, industry, quality and size. The purpose of this diversification is to provide a reasonable assurance that no single security or class of securities will have a disproportionate impact – positive or negative – on the overall performance of the Fund.

The Operating Guidelines, a template for which is set forth in Attachment A, contain the Fund's target asset allocation and range for each asset class or investment strategy, together with the applicable guidelines and restrictions. Taken together, these constitute a framework to assist NAP and its investment managers in achieving the Fund's investment objectives at a level of risk consistent with the parameters set forth in this Statement.

Depending on market conditions, each asset class may vary as much as plus or minus 5% the target allocation. When necessary and/or available, cash inflows/outflows will be deployed in a manner consistent with the strategic allocation of the Fund. If there are no cash flows, the allocation of the Fund shall be reviewed semi-annually.

If the equity holdings in any one specific company exceeds more than 5% of the market value of the Association's equity portfolio, the Committee shall report this fact to the Board prior to or at the next regular meeting.

APPENDIX G: WHISTLEBLOWER PROTECTION POLICY

NAP requires directors, officers, and employees to observe high standards of business and professional ethics in the conduct of their duties and responsibilities. As employees and representatives of NAP, we must practice honesty and integrity in fulfilling our responsibilities and comply with all applicable laws and regulations.

Reporting Responsibility. This Whistleblower Policy is intended to encourage and enable employees and others to raise serious concerns internally so that NAP can address and correct inappropriate conduct and actions. It is the responsibility of all board members, officers, employees and volunteers to report concerns about violations of NAP's Code of Conduct or suspected violations of law or regulations that govern NAP's operations.

No Retaliation. It is contrary to the values of NAP for anyone to retaliate against any board member, officer, employee, or volunteer who in good faith reports an ethics violation, or a suspected violation of law, such as a complaint of discrimination, or suspected fraud, or suspected violation of any regulation governing NAP. An employee who retaliates against someone who has reported a violation in good faith is subject to discipline, up to and including termination of employment.

Reporting Procedure. NAP has an open door policy and suggests that employees share their questions, concerns, suggestions, or complaints with their supervisor. If you are not comfortable speaking with your supervisor or you are not satisfied with your supervisor's response, you are encouraged to speak with the NAP President. Supervisors and managers are required to report complaints or concerns about suspected ethical and legal violations in writing to the NAP President, who has the responsibility to investigate all reported complaints. Employees with concerns or complaints may also submit their concerns in writing directly to their supervisor or the Executive Director.

Compliance Officer. The NAP President is responsible for ensuring that all complaints about unethical or illegal conduct are investigated and resolved. The NAP President will advise the Board of Directors of all complaints and their resolution and will report at least annually to the Treasurer on compliance activity relating to alleged accounting or financial improprieties.

Accounting and Auditing Matters. The NAP President shall immediately notify the Treasurer of any concerns or complaints regarding corporate accounting practices, internal controls, or auditing work, and shall work with the Treasurer until the matter is resolved.

Acting in Good Faith. Anyone filing a written complaint concerning a violation or suspected violation must be acting in good faith and have reasonable grounds for believing that the information disclosed indicates a violation. Any allegations that prove not be substantiated and which prove to have been made maliciously or knowingly to be false will be viewed as a serious disciplinary offense.

Confidentiality. Violations of suspected violations may be submitted on a confidential basis by the complainant. Reports of violations or suspected violations will be kept confidential to the extent possible, consistent with the need to conduct an adequate investigation.

Handling of Reported Violations. The NAP President will notify the person who submitted a complaint and acknowledge receipt of the reported violation or suspected violation. All reports will be promptly investigated and appropriate corrective action taken, if warranted by the investigation.
